**Variation**  
PET Felt uses a traditional 'felting' process to create its panels. This often results in a pleasing "heathered" effect, where multiple tones are present in the fiber. Slight and consistent variations in color should be expected when using this sustainable recycled material.

**Installation**  
With pre-drilled mounting plates and back panel brackets one can easily install it quickly. Add mounting plates to marked areas on the panel. Measure the distance between this two to install left and right bracket on the table. Slide the installed mounting plate on the panel bracket to finish the installation
