SPOKE LITE

Acoustical Ceiling Light

SPOKE LITE is light and sound working together in perfect harmony. We have developed a series of acoustical lighting options using high-performance LED fixtures and sound absorbing materials to create architectural elements that optimize(s) your lighting and sound absorption needs. Each fixture creates a coordinated look that reduces unwanted reverberation in your space while providing optimized, energy efficient, dimmable illumination.

SPOKE LITE is a radial design of PET felt petals available in three shapes: ROUND, PEAR and CUBE. The multi-directional LED lighting provides adjustable illumination with soft, playful shadows.

Installation

A detachable mounting plate can be installed with the given mounting screw to the ceiling. The junction box can be connected with a junction box screw inside the canopy. Fixture wire length is adjustable by pushing the cable gripper on the canopy and pulling the wire as desired. The actual ceiling connection depends on ceiling type and ceiling fasteners not included.

Shipping Factory assembled and ships ready for installation.

* Two-year limited warranty guarantees all of our products are free from defects in the materials and maintain their quality of craftsmanship. See our "Terms and Warranties" sheet for full details.
